

Joomla 3.x and CB 2.0+ Support!

Written by Administrator

All Software4Joomla products are now Joomla 3.x (CB 2.0+ required) ready and continue to work on Joomla 2.5 environments also!

In order to clearly identify this we have released all products as version 2.1.0 as follows:

- [s4j New Users module version 2.1.0](#) (free for registered members)
- [s4j Total Members module version 2.1.0](#) (free for registered members)
- [s4j Users Online module version 2.1.0](#) (free for registered members)
- [s4j Birthdays module version 2.1.0](#) (yearly single product or s4j bundle subscription)
- [s4j Buddy List module version 2.1.0](#) (yearly single product or s4j bundle subscription)
- [s4j Featured Members module version 2.1.0](#) (yearly single product or s4j bundle subscription)
- [s4j Last Logged Users module version 2.1.0](#) (yearly single product or s4j bundle subscription)
- [s4j Last Updated Profiles module version 2.1.0](#) (yearly single product or s4j bundle subscription)
- [s4j Most Visited Profiles module version 2.1.0](#) (yearly single product or s4j bundle subscription)
- [s4j Random Profiles module version 2.1.0](#) (yearly single product or s4j bundle subscription)

All active s4j bundle subscribers can download all the above as free upgrades.

[Become a s4j bundle subscriber now](#) and get all 10 packages and free upgrades and support for a full year and you can keep everything you download and use it on

all
your websites
forever
